

## Announcement No. 7/2025

### ESG Policy

SCG Chemicals Public Company Limited (SCGC) is committed to conducting business in accordance with sustainable development, to develop products and services that promote health, well-being, and the environment. Our ESG strategy and goals comprise of:

1. Reduce greenhouse gas emissions by 700,000 tons of CO<sub>2</sub> equivalent by 2030, aiming for carbon neutrality by 2050 through various initiatives such as:
  - Continuously improving energy efficiency
  - Increasing the proportion of renewable energy use
  - Promoting the use of low-carbon energy and raw materials
  - Applying technologies for carbon capture and utilization
  - Encouraging partners and suppliers to access carbon reduction technologies
  - Applying ecosystem restoration and management approaches that benefit both humans and nature
2. Recover and recycle 500,000 tons of used plastic to the circular economy annually by 2030, through measures such as:
  - Promoting infrastructure and sorting from the source to efficiently collect used plastic into the system
  - Developing plastic recycling technology to maximize efficiency
3. Concern for social responsibility, considering all stakeholders and promoting community quality of life in all business areas, through initiatives such as:
  - Supporting the transition to a low-carbon society by emphasizing circular economy principles

- Enhancing the capabilities of communities around factories, including vulnerable groups, to reduce social inequality through various projects such as education, career development, and good health and well-being promotion

SCGC conducts business with good governance, transparency, fairness, and respect for human rights throughout the value chain, building confidence in good corporate governance. We manage business continuity and build stakeholder confidence to ensure sustainable business growth.

We create sustainable polymers and solutions for a better future.

Announce as of March 30<sup>th</sup>, 2025.

SCG Chemicals Public Company Limited
